## Shaping the future

Vital Energi are committed to shaping the UK's net zero carbon journey through the latest renewable technologies and smart infrastructure. In order to succeed in our mission, we need the right people with the right skills to help us. By the time you finish your apprenticeship you'll not only be qualified to work in the trade, you'll also have a great understanding of the renewable energy industry.

A BRIEF

overview

## A vital role in all our futures

Vital Energi is a leading provider of renewable energy infrastructure and systems to the public and private sector.

We are supporting hospitals, universities, new build developments, towns and cities as well as industrial and commercial clients to decarbonise their buildings. We have, and continue to work on ground-breaking projects throughout the UK that are really making a difference to achieve our net zero targets, and we were recently recognised for this by our Industry Association, awarding us the Contribution to Net Zero award.

Vital Energi has also started to build its first Waste to Energy plant at a site in Drakelow, Derbyshire.

Upon successful completion of your Level 3 qualification its onwards and upwards as we support your continued professional development in your chosen field! Register your interest with **[earlycareers@vitalenergi.co.uk](mailto:earlycareers@vitalenergi.co.uk)**

*I have always enjoyed working with tools to create something useful for the world and with Vital I can see the positive effect my work has across the country.*

LEVEL 3 BUILDING SERVICES ENGINEERING

# craft

## PROGRAMME

You will undertake work placements within key departments working alongside a team of energy centre installation operatives, prefabrication teams and operation and maintenance engineers. Key skills you will learn along the way include pipework fabrication and jointing techniques, welding skills, installation of plumbing and heating systems and learning how to carry out maintenance of our assets within our energy centres and residential properties.

---

SALARY from **£15,000**

---

WORKING WEEK **40 HRS**

---

APPRENTICESHIP DURATION **48 MONTHS**

---

**Some of your work placements may require you to work away from home but travel and accommodation will be subsidised by us!**

**< Join our award winning apprentices**

*I didn't know which career path I wanted to follow but working across all of the departments has helped me realise what best suits me and my skillset!*

LEVEL 3 BUILDING SERVICES ENGINEERING

# technical

## PROGRAMME

You will undertake work placements across key business departments working alongside a team of experienced designers, project managers, engineers, and commercial managers. Key skills you will learn include developing your knowledge and understanding of electrical, plumbing, and mechanical systems within a building whilst working on projects with carbon neutral technologies such as heat pumps, solar PV, bio mass and heat networks. You will support our pre-construction team in the bid writing process and work with the commercial team to understand how our projects are delivered to budget.
